

## Why Choose Trimaxx?

Trimaxx International Publishers is a privately owned and operated publishing house established in 2005.

We are *not* a vanity publisher, print-on-demand service, or a mass-market book seller.

However, should you want mass-market book publishing and all that is entailed, we can and will provide this; but ultimately, this is what keeps authors from achieving financial stability and independent success. The costs are much too high—for the publisher and the author.

What we are-- is a publishing house dedicated to the success of our authors and their published work(s).

What we are, is a publishing house only dedicated to producing quality books which have the distinction of quality professional editing, one-of-a-kind professional book cover design, and author contracts designed to protect the author and their works. Trimaxx has its own Distribution center in Colorado, but also work with Baker & Taylor, one of the largest book distributors in the world.

We are a 'teaching' publishing house dedicated to give all of our authors the tools necessary to succeed in their craft, and the advice that is vital to advance in the publishing industry today.

We are staffed, trained, certified, and proven in the publishing industry. We are a *publishing* house, and nothing more.

If you have any questions or comments, please call us at 1-877-487-4629
